In this collection of taxidermy art, you'll find a winged monkey with a fez and a martini glass, a jewel-encrusted piglet, a bionic fawn, and a polar bear balancing on a floating refrigerator. Author Robert Marbury makes for a friendly (and often funny) guide, addressing the three big questions people have about taxidermy art: What is it all about? Can I see some examples? and How can I make my own? He takes readers through a brief history of taxidermy (and what sets artistic taxidermy apart) and presents stunning pieces from the most influential artists in the field. Rounding out the book are illustrated how-to lessons to get readers started on their own work, with sources for taxidermy materials and resources for the budding taxidermist.
