The verse-by-verse commentary on the Ovidian text includes the reading of more than 300 manuscripts, including the so-called Heinsian manuscripts, and of almost 100 editions, from the two "editiones principes" of 1471 to the present day. The introduction describes the manuscripts used, and a history of the Ovidian editions is also traced. A new text of book VI is presented, accompanied by a slim and lucid critical apparatus. Further information appears in the commentary and in the appendices, particularly readings of manuscripts and editions. The verbatim commentary offers, with reliable quotes for each term, the critical observations of all the editors and commentators of the Ovidian work throughout the centuries. This aspect of critical edition has been neglected by commentators of Ovid since Heinsius (1659) and Burman (1727). Two appendices ("Readings of manuscripts" and "Readings of editions") are added for the first time for readers of the Ovidian work. The volume closes with a "Select index of textual problems", a large "Index locorum" and an "Index nominum".

Seneca's developed metaphors draw on what is known to describe the unknown. They put hard ethical in highly accessible, and often quite entertaining, terms. The present book provides a functional description of Seneca's dialectical relation between metaphorical language and philosophy. It shows how Stoic philosophy finds a new means of expression in Seneca's highly elaborated rhetorical discourse, and how this relates to the social and cultural demands of Neronian culture. Metaphors are purposely utilized to work "collectively" rather than by category or type and that, therefore, the analysis of what metaphors do when Seneca chooses to combine them in clusters, demonstrates the existence of a "metanarrative of rhetoric". This approach is fundamentally innovative and has the advantage of gauging the functioning of Senecan style as a whole, rather than focusing on single features of its rhetorical functioning. The main target is to show how philosophical preaching materially contributes to the healing of human soul because it shapes the individual's cognitive faculty in a way that is physical and not simply figurative. The stylus and the scalpel blend in their functions. This kind of therapy is not just the simulacrum of a more "real" one, it is in itself medical in nature.

K. P. Harrington's Mediaeval Latin, the standard medieval Latin anthology used in the United States since its initial publication in 1925, has now been completely revised and updated for today's students and teachers by Joseph Pucci. This new edition of the classic anthology retains its breadth of coverage, but increases its depth by adding fourteen new selections, doubling the coverage of women writers, and expanding a quarter of the original selections. The new edition also includes a substantive grammatical introduction by Alison Goddard Elliott. To help place the selections within their wider historical, social, and political contexts, Pucci has written extensive introductory essays for each of the new edition's five parts. Headnotes to individual selections have been recast as interpretive essays, and the original bibliographic paragraphs have been expanded. Reprinted from the best modern editions, the selections have been extensively glossed with grammatical notes geared toward students of classical Latin who may be reading medieval Latin for the first time. Includes thirty-two full-page plates (with accompanying captions) depicting medieval manuscript and book production.
